### Introduction

Thank you for using Sidify Apple Music Converter for Windows!

[Sidify Apple Music Converter for Windows](#) is a useful all-in-one music converter that enables you to convert **Apple Music tracks**, **iTunes M4P music** and **iTunes/ Audible Audiobooks** to MP3, AAC, FLAC, WAV, AIFF or ALAC at up to 10X speed. It keeps original audio quality and retains artwork and metadata after conversion. In addition, it allows you to edit tag info in the program. Besides, Sidify is able to burn your Apple Music to CD as well as upload and share Apple Music to OneDrive.

With its concise and intuitive interface, users can easily handle Sidify Apple Music Converter for Windows at first sight. This software is embedded with almost all the required features that you expect for a qualified audio converter.

## Key Features

- Convert Apple Music, iTunes M4P music and audiobooks to MP3/AAC/FLAC/WAV/AIFF/ALAC;
- Convert local music file to MP3/M4A/AAC/WAV/OGG format;
- Support batch conversion; Keep ID3 Tags; Edit tags information;
- 1-click to burn Apple Music to CD;
- Fully compatible with the latest version of iTunes;
- Support the latest Windows 11.

## System Requirements

- Windows 7, 8, 10, 11;
- 1GHz processor or above;
- 512 megabytes (MB) or higher of RAM;
- 1GB of available hard-disk space or higher;
- iTunes 10 or higher (the latest version of iTunes is recommended).

### Purchase Sidify Apple Music Converter for Windows

**Tip:** To buy a license key for Sidify Apple Music Converter for Windows, click [Here](#).

#### 1. Why should I buy Sidify Apple Music Converter for Windows?

Sidify Apple Music Converter for Windows is a shareware. The trial version is limited to convert the first **minute** for each audio file. After you purchase the program, you'll receive your registration info to unlock the trial version limitation.

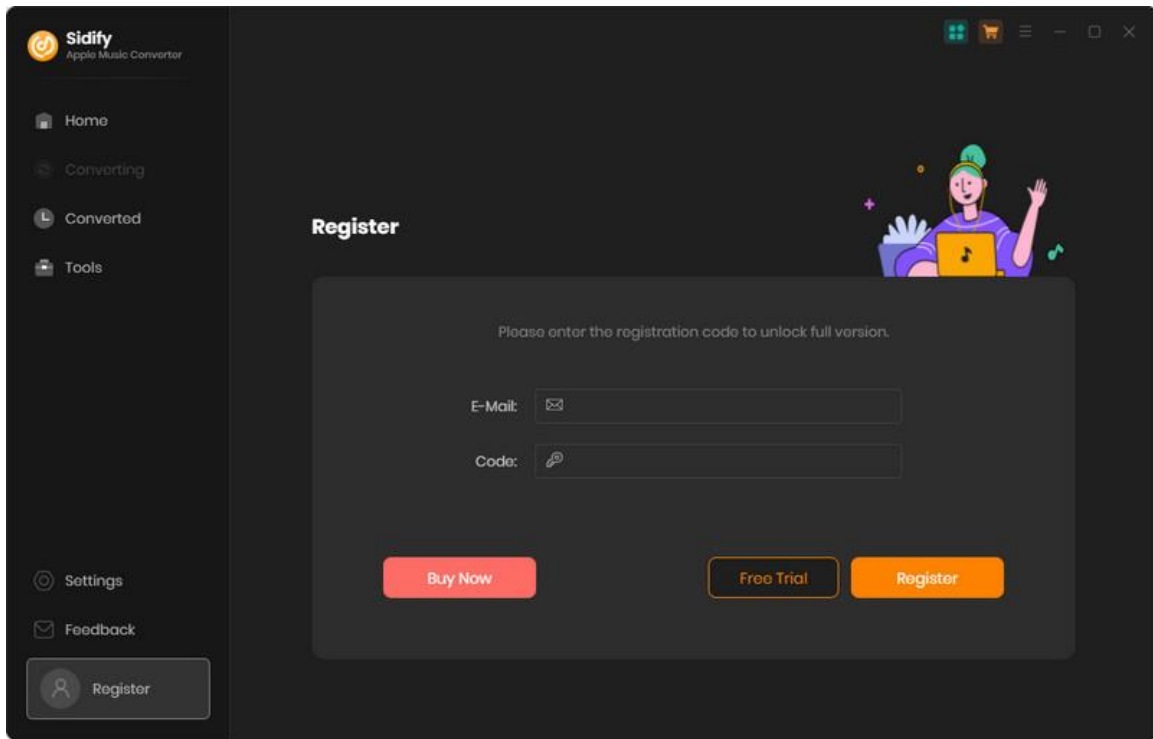

#### 2. What are the Benefits of Getting Registered?

- You can convert Apple Music without time limitation.
- You can enjoy FREE upgrades to the latest versions of the same product.
- You can enjoy FREE technical supports.

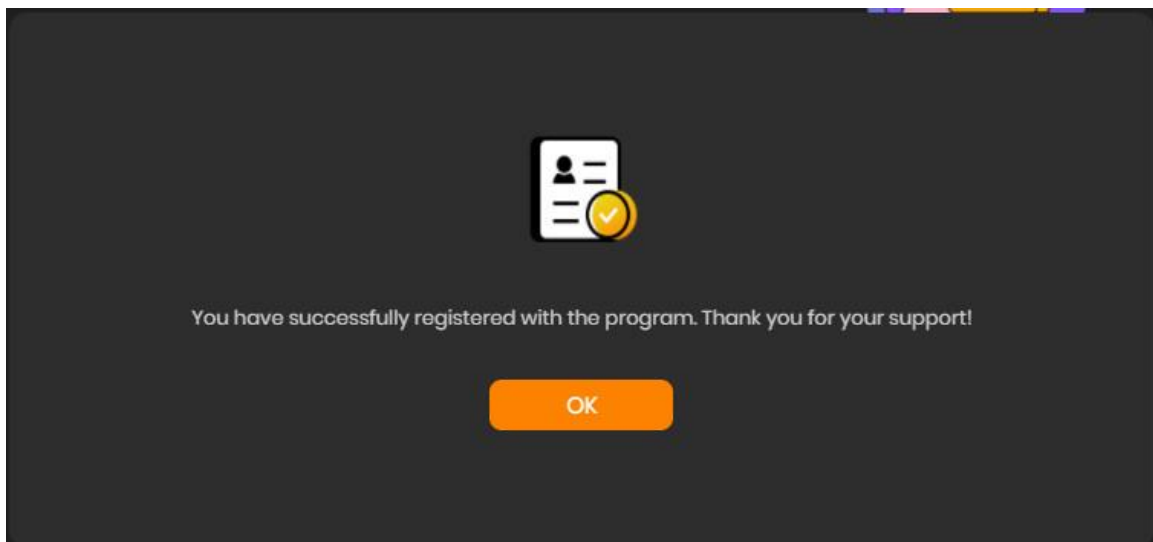

## Register Windows Version of Sidify Apple Music Converter

**Step 1:** Launch Sidify Apple Music Converter and click the **Cart** icon in the upper right corner.

**Step 2:** Please register the program with your registration e-mail and registration code, and then click **OK** button to finish it.

**Step 3:** Once the program is registered successfully, the limitation of the trial version will be removed.

### Select Conversion Mode

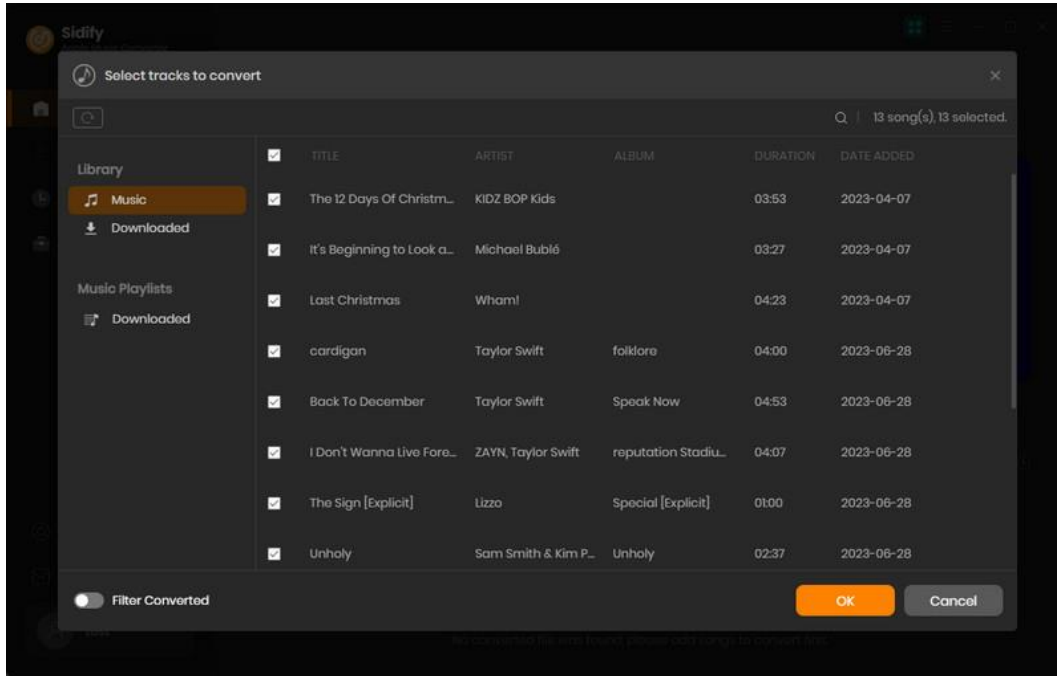

Run Sidify Apple Music Converter and pick one of the conversion mode as below.

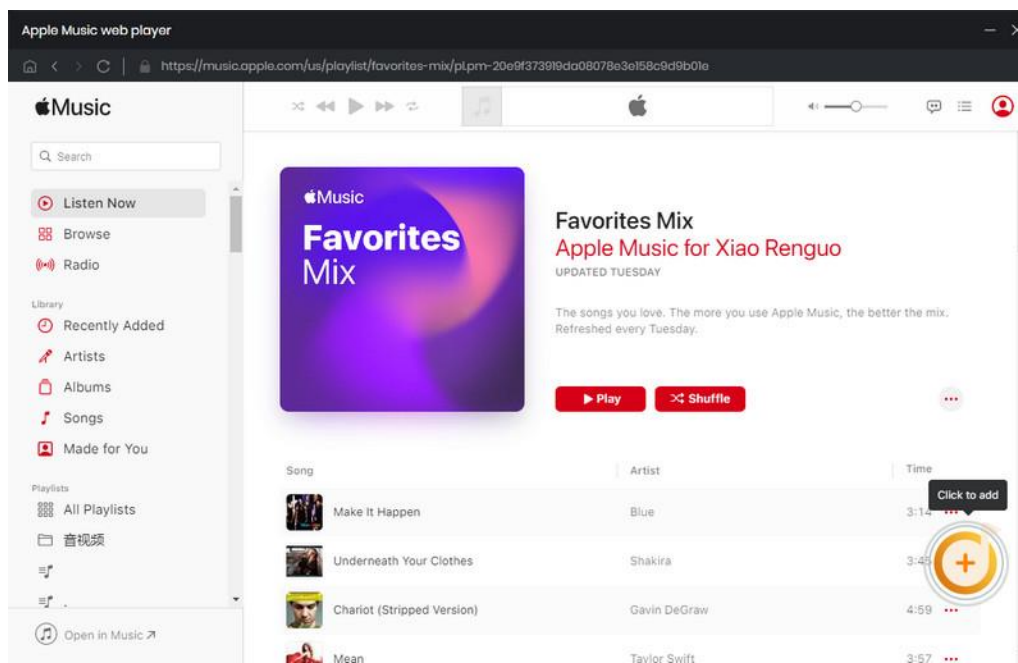

## Import Music Files

**[iTunes App Mode]:** Click **Add** button at the top of Sidify interface, and then there would be a pop-up window that allows you to select music from your iTunes to Sidify.

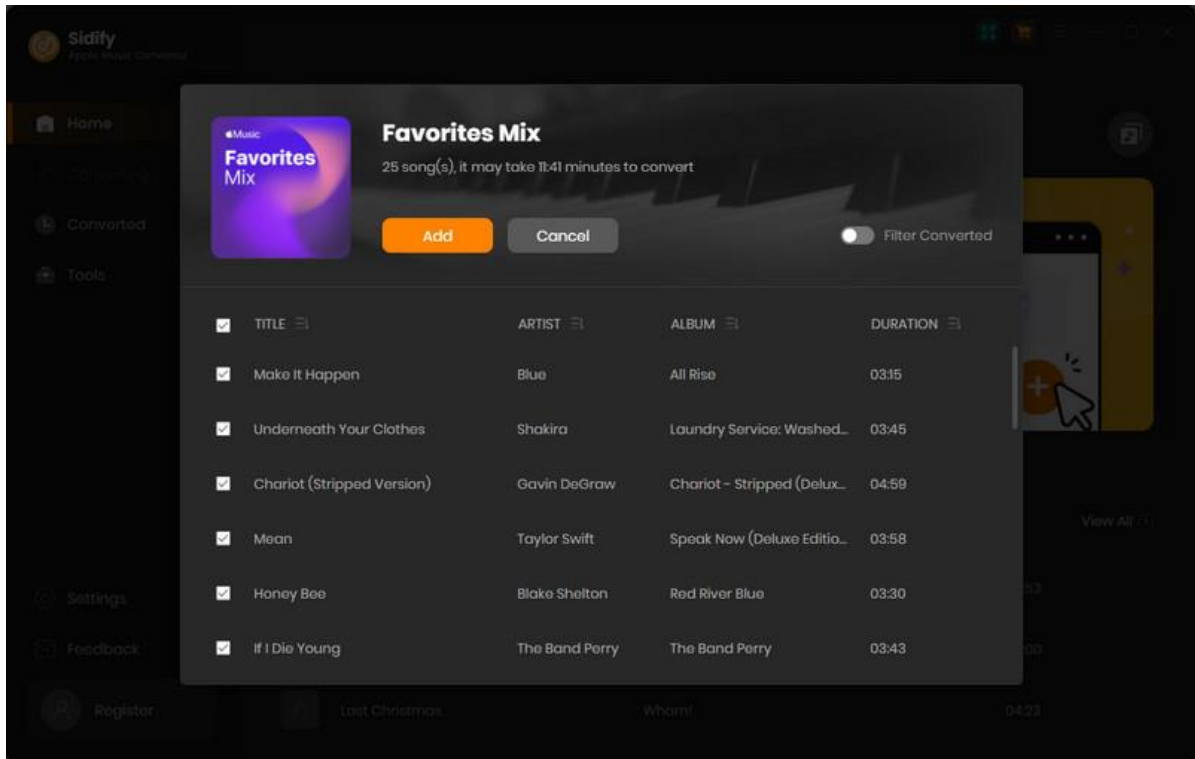

**[iTunes Webplayer Mode]:** Click the "Open the Webplayer Window" button, and open the Apple Music library. With your Apple Music logged in, you then pick your favorite songs, and click the "Click to add" icon to add them to the conversion panel.

## Delete Music Files

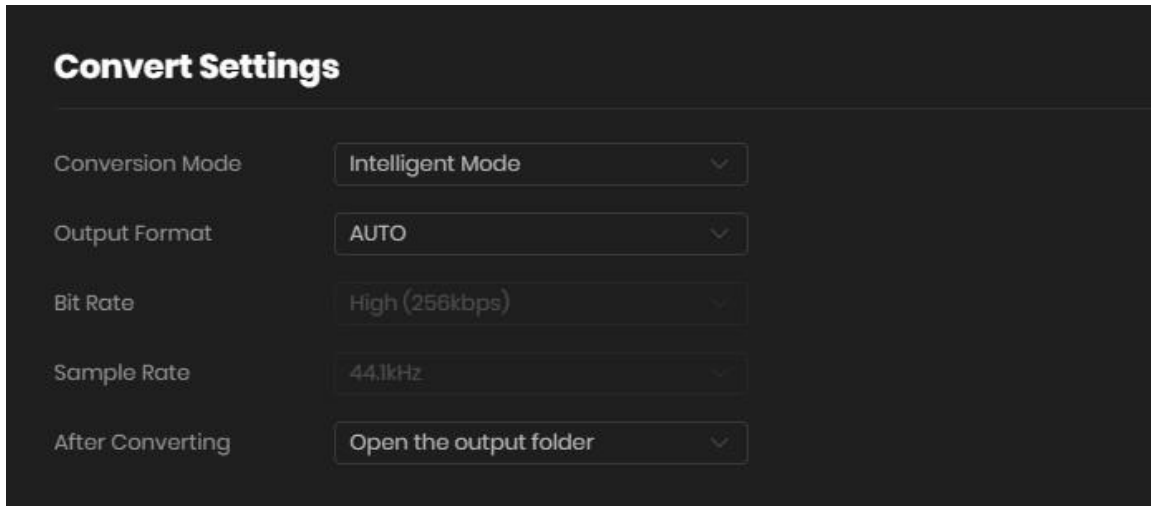

If you'd like to delete any file that has been added to Sidify, simply uncheck the box next to the track to delete it.

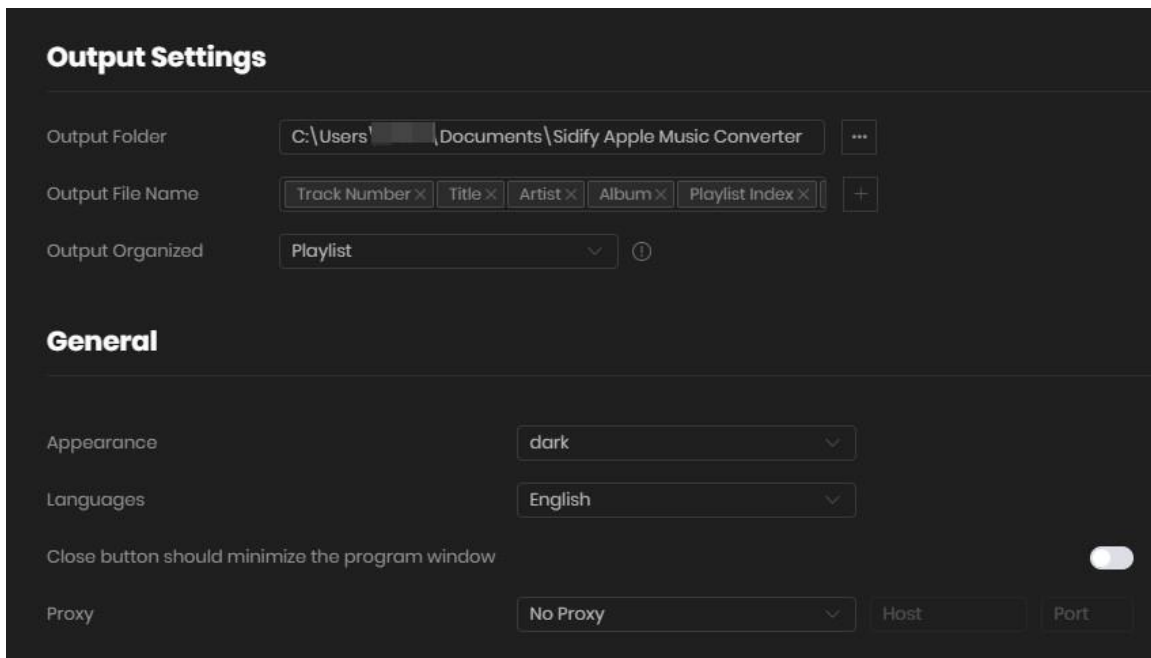

## Choose Convert Settings

After importing music to Sidify, you can click the **Settings** tab at the left panel to choose output format (MP3, AAC, FLAC, WAV, AIFF, ALAC), conversion mode, output quality (320kbps, 256kbps, 192kbps, 128kbps), and etc.

## Customize Output and General Settings

In the output settings section, you can click **3 dots** to customize the output directory if needed. Otherwise, the converted files will be saved under the default folder. Also, you can customize the output file name and classify the music file based on album and artist.

## Convert Music Files

Once everything is ready, just click the **Convert** button to start converting.

Note: If you are an unregistered user, you'll see a prompt message as below after clicking the **Convert** button. Simply close it to continue or click "Buy Now" to get it registered.

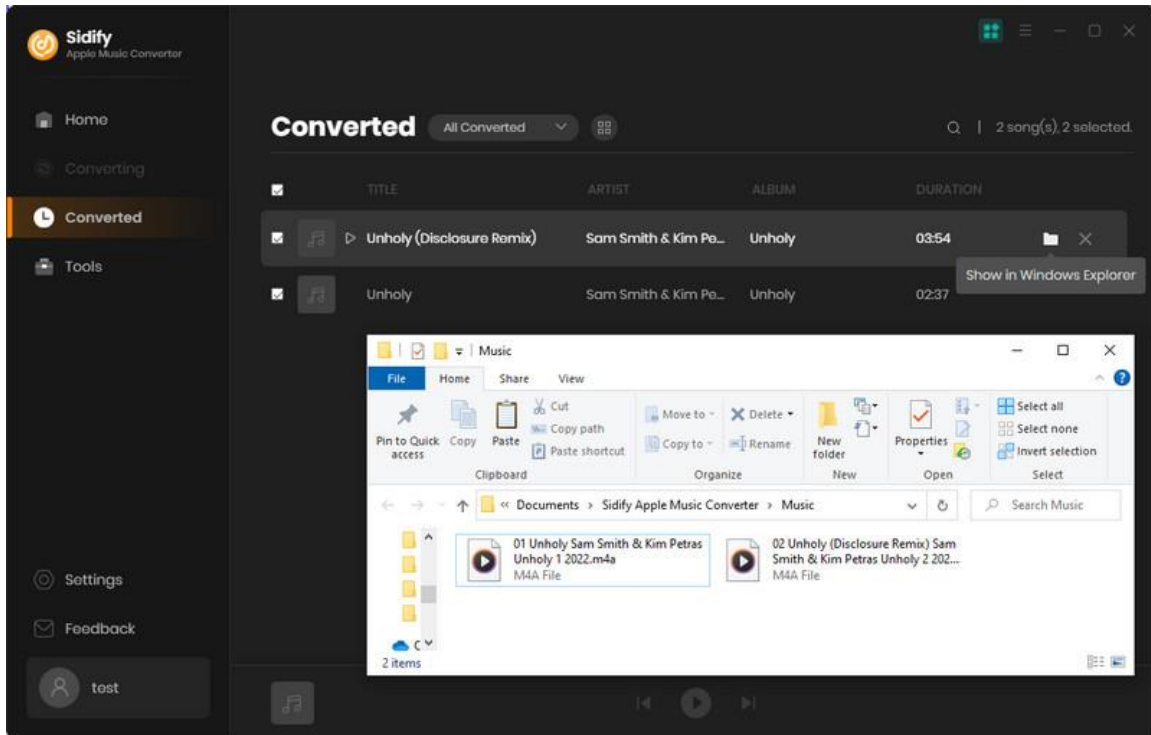

# Tutorial of Sidify Apple Music Converter for Windows

## Check Conversion History

When the conversion is done, you can find the converted audio files by clicking the **Converted** tab. You can also check the converted files by directly going to the output folder you set in the previous step.

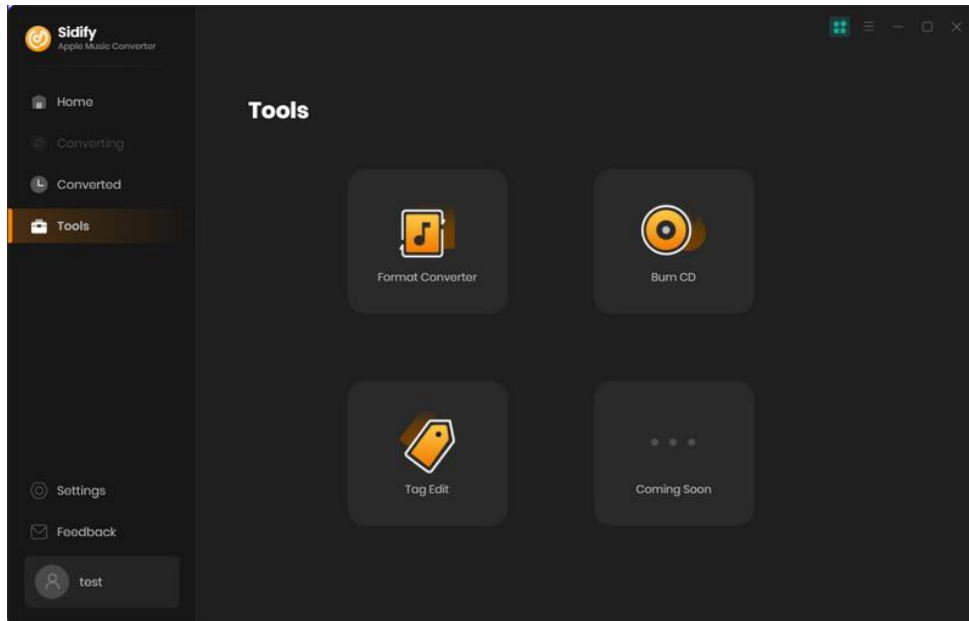

# Tutorial of Sidify Apple Music Converter for Windows

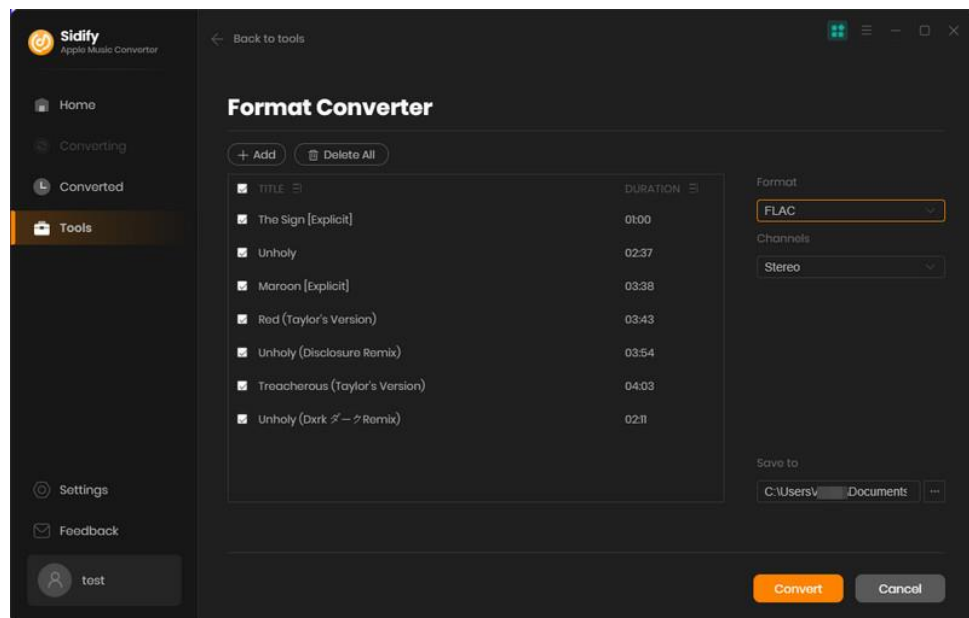

## Additional Tools

In **Tools** tab, Sidify provides users with the features of format conversion and tag edition to help manage the music files more conveniently. In addition, you can directly burn the songs to CD or upload and convert the local music to other formats.

## Format Converter

Select **Format Converter**, and then click the **Add** button and browse & upload your local audio files to Sidify. Choose the output format (MP3, M4A, FLAC, WAV, OGG, AIFF), specify the output folder and finally click the Convert button to export them to the local drive.

## Edit Tag

In **Tools** tab, select **Edit Tag**, and then click the Add button on the upper left corner and browse & upload your local audio file to Sidify. You can then edit the Title, Artist, Album, Genre, Year and Track Number.

## Burn CD

In **Tools** tab, click Burn CD section. Here, you can add songs from the local computer and insert your CD as preparation. As long as you put all your songs for burning, tap the Burn button to start the process until it finished.
