Introduction

Thank you for using Sidify Apple Music Converter for Windows!

[Sidify Apple Music Converter for Windows](#) is a useful all-in-one music converter that enables you to convert **Apple Music tracks**, **iTunes M4P music** and **iTunes/ Audible Audiobooks** to MP3, AAC, FLAC, WAV, AIFF or ALAC at up to 10X speed. It keeps original audio quality and retains artwork and metadata after conversion. In addition, it allows you to edit tag info in the program. Besides, Sidify is able to burn your Apple Music to CD as well as upload and share Apple Music to OneDrive.

With its concise and intuitive interface, users can easily handle Sidify Apple Music Converter for Windows at first sight. This software is embedded with almost all the required features that you expect for a qualified audio converter.

Key Features

- Convert Apple Music, iTunes M4P music and audiobooks to MP3/AAC/FLAC/WAV/AIFF/ALAC;
- Convert local music file to MP3/M4A/AAC/WAV/OGG format;
- Support batch conversion; Keep ID3 Tags; Edit tags information;
- 1-click to burn Apple Music to CD;
- Inbuilt AA/AAX to MP3 Converter, Audio Editor and AI Audio Splitter.
- Fully compatible with the latest version of iTunes;
- Support the latest Windows 11.
- Support up to 48 languages.

System Requirements

- Windows 7, 8, 10, 11;
- 1GHz processor or above;
- 512 megabytes (MB) or higher of RAM;
- 1GB of available hard-disk space or higher;
- iTunes 10 or higher (the latest version of iTunes is recommended).

Purchase Sidify Apple Music Converter for Windows

Tip: To buy a license key for Sidify Apple Music Converter for Windows, click [Here](#).

1. Why should I buy Sidify Apple Music Converter for Windows?

Sidify Apple Music Converter for Windows is a shareware. The trial version is limited to convert the first **minute** for each audio file. After you purchase the program, you'll receive your registration info to unlock the trial version limitation.

2. What are the Benefits of Getting Registered?

- You can convert Apple Music without time limitation.
- You can enjoy FREE upgrades to the latest versions of the same product.
- You can enjoy FREE technical supports.

Register Windows Version of Sidify Apple Music Converter

Step 1: Launch Sidify Apple Music Converter and click the **Cart** icon in the upper right corner.

Tutorial of Sidify Apple Music Converter for Windows

Step 2: Please register the program with your registration e-mail and registration code, and then click **OK** button to finish it.

Step 3: Once the program is registered successfully, the limitation of the trial version will be removed.

Tips:

1. Make sure your computer is well-connected with Internet.
2. We suggest you copy & paste the registration information into the pop up dialog.
3. If you have not paid for the program, please click **Buy Now** to get a license.
4. Please make sure the registration e-mail and code you enter are both complete and correct, otherwise, you will see an error message as below:

Import Music Files

[iTunes App mode]: Click the **"Add"** button, and you'll see a pop-up dialog which shows you your entire iTunes library. Tick the audio files that you'd like to get as MP3/AAC/WAV/FLAC/AIFF/ALAC files and click **"OK"** button to add them to Sidify Apple Music Converter.

Tutorial of Sidify Apple Music Converter for Windows

[Web mode]: From the Webplayer Window, log in with your Apple Music, you then pick your favorite songs, and click the "Click to add" icon to add them to the conversion panel.

Delete Music Files

If you'd like to delete any file that has been added to Sidify, simply uncheck the box next to the track to delete it.

Choose Convert Settings

After importing music to Sidify, you can click the **Settings** tab at the left panel to choose output format (MP3, AAC, FLAC, WAV, AIFF, ALAC), conversion mode, output quality (320kbps, 256kbps, 192kbps, 128kbps), and etc.

Customize Output Settings

In the output settings section, you can click **3 dots** to customize the output directory if needed. Otherwise, the converted files will be saved under the default folder. Also, you can customize the output file name and classify the music file based on album and artist.

Convert Music Files

Once everything is ready, just click the **Convert** button to start converting.

Note: If you are an unregistered user, you'll see a prompt message as below after clicking the **Convert** button. Simply close it to continue or click "Buy Now" to get it registered.

Tutorial of Sidify Apple Music Converter for Windows

Check Conversion History

When the conversion is done, you can find the converted audio files by clicking the **Converted** tab. You can also check the converted files by directly going to the output folder you set.

Additional Tools

In **Tools** tab, Sidify provides users with the features of Audiobook AA/AAX converter, audio format conversion and tag edition to help manage the music files more conveniently. In addition, you can directly burn the songs to CD or upload and convert the local music to other formats.

Tutorial of Sidify Apple Music Converter for Windows

AA/AAX Converter is given to convert audiobooks into common audio formats like MP3, M4A, M4B format. You can make it possible to listen to audiobooks on any compatible device or media player of your choice, without being limited to official proprietary software or devices.

AI Audio Splitter is free to use for removing vocal and music from audio files. It works to separate vocal, instrumental, drum, bass, piano, electric guitar, acoustic guitar, and synthesizer tracks while preserving audio quality.

Tutorial of Sidify Apple Music Converter for Windows

Audio Editor is used to cut, copy, paste, and delete portions of audio files. You can trim unwanted sections, rearrange audio segments.

Format Converter

Select **Format Converter**, and then click the **Add** button and upload your local audio files to Sidify. Choose MP3, M4A, FLAC, WAV, OGG, AIFF, specify the output folder and click the **Convert**.

Burn CD

In **Tools** tab, click Burn CD section. Here, you can add songs from the local computer and insert your CD as preparation. As long as you put all your songs for burning, tap the Burn button to start the process until it finished.

Edit Tag

In **Tools** tab, select **Edit Tag**, click the Add button on the upper left corner and browse & upload your local audio file to Sidify. Then edit the Title, Artist, Album, Genre, Year and Track Number.
